

# Cilindro Montacarga Fork Lift Truck (FLT) LiteSafe® Composite Cylinder

LiteSafe®

TIME

## FLT Cylinder's Multifunction Valve

80.8190  
80.0.390.8190

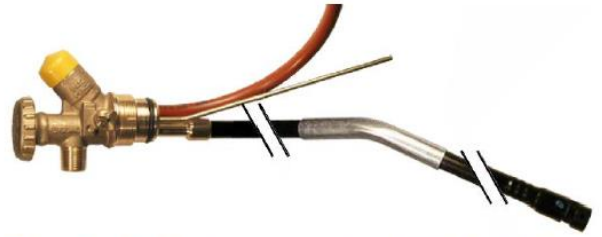

- One Hole Solution for Composite Cylinder in DOT Fork lift Services
- One hole solution -Fewer points for potential leak
- Multifunction Valve including PRD and Excess Flow Valve
- Outlet – 3/8 18 NPT

# Fork Lift Truck (FLT) Cylinder Comparison

## Metal FLT Cylinder

- Very heavy , not explosion Proof and safe
- Multiple holes for different functions, means possibility of potential leakage .
- Multiple valve
- Non Translucent , difficult to see Fuel level ,Required Fuel Indicator
- Rust quickly & paint peels off
- Required frequent refurbishing , more maintenance cost

## LiteSafe® Composite FLT Cylinder

- 50% Lighter ,Safer alternatives and Explosion proof
- One hole solution to avoid leakage & for day to day operational convenience .
- Single Valve with Multi-Function including PRV
- Translucent Cylinder thus no more Fuel level indicator required, Easy to see how much fuel left.
- No Rusting or pain peel off
- Maintenance free design , No refurbishing required
